*Bringing Healthier Water to
Houston's Homes!*

AquaGuard™ Standard
The one the builders trust!

DUAL STAGE DRINKING WATER FILTER
CHEMICAL, CYST AND PARTICULATE REDUCTION

Micron Rating:
Filters down to 0.5 Microns Nominal

99.984%+ reduction of 3 – 4 μm particulates.

99.960%+ reduction of 1 – 2 μm particulates.

High chemical adsorptive capacity.
No channeling / No fluidizing / No bypassing.
High TOC reduction.

Eliminates release of carbon fines.
Efficient reduction of insoluble lead particles.
Cyst reduction: Giardia lamblia,
Cryptosporidium.
Effective turbidity reduction.
Meets NSF Standard 42 Class 1 filtration standards.

Maximum service life, resistance to fouling.

Lowest extractables, pure materials of construction.
